25 YEAR RE-REVIEW

MEMORANDUM FOR: Mr. Helms, COPS

Please see attached letter from Admiral Espe which I discussed with him this morning at the IAC meeting, and I showed him that we had already initiated action within the restricted limits possible. He is sending instructions to his Attache to contact our man.

I do not know whether we can safely give our man any further guidance, but very possibly this message will elicit the desired information. I am anxious to cooperate cordially with Espe who is proving particularly cooperative these days.
